

SUJAL CHAUHAN

DATA SCIENCE / MACHINE LEARNING

Surat, Gujarat, India

+91 91047 20197 | sujalthauhan286@gmail.com

[Linkdin](#) | [Github](#) | [Portfolio](#)

TECHNICAL SKILLS

Languages: Python, SQL

Data Analysis: Pandas, NumPy, EDA

Visualization: Matplotlib, Seaborn

Machine Learning: Scikit-learn, Regression, Classification, Decision Trees, Random Forest, XGBoost, Feature Engineering

Tools: Google Colab, VS Code, Git, GitHub

Deployment / APIs: Streamlit, FastAPI

PROJECTS

Customer Churn Prediction | Python, Pandas, Scikit-learn, XGBoost | [Github](#)

- Performed EDA and feature engineering to identify customer churn patterns.
- Compared classification models using cross-validation and evaluation metrics.

Car Price Prediction | Python, Pandas, Scikit-learn, XGBoost | [Github](#) | [Live Demo](#)

- Performed data preprocessing, feature engineering and EDA on vehicle data.
- Compared regression models using R^2 , MAE and cross-validation.

Email Spam Classifier | Python, NLP, TF-IDF, Scikit-learn | [Github](#) | [Live Demo](#)

- Applied text preprocessing and TF-IDF for spam classification.
- Built and deployed a Streamlit application for real-time spam prediction.

Education

Bachelor of Computer Applications (BCA)

VNSGU, Surat | 2023–2026 | CGPA: 8.1
